EXPERIENCE

Java Full Stack Developer Intern | CETPA InfoTech | September 2024 – December 2024
- Learned industry oriented web development concepts as well as software development concepts.
- Co-worked under projects based on Java full stack technologies.
- Worked under guidance to build E-commerce projects and several business landing pages.

Java Full Stack Developer Intern | AWC Software | NOIDA | July 2024 – August 2024
- Developed and maintained web applications name '**Elevate Care**' using **Java Full Stack**, resulting in a 20% increase in user engagement.
- Collaborated with cross-functional teams to design and implement RESTful APIs, enhancing data retrieval efficiency by 30%.
- Optimized database queries and operations in SQL, improving application performance by 25%.
- Implemented responsive UI/UX designs using HTML, CSS, and React, increasing mobile user satisfaction by 18%.
- Utilized version control systems (Git, GitHub) to manage codebases and track changes, ensuring seamless collaboration and code quality.

SKILLS

TECHNICAL SKILLS:

- **Languages –** Java, C.
- **Frontend & Backend-** HTML, CSS, JavaScript, Hibernate, Spring MVC, Spring Boot, Web Services .
- **Framework & Libraries-** React.js, Bootstrap, Tailwind CSS, jQuery, JSP, Servlets, JDBC.
- **Database & Tools-** MySQL, MongoDB ATLAS.
- **Tools -** Version Control Using Git / GitHub, Figma, Power BI, Tableau.
- **IDE –** Visual Studio Code, Eclipse, IntelliJ IDEA.
- **Technical Concepts -** OOPs, Data Structures & Algorithms, Database Management System, Basic Concepts of Networking.

PROJECTS

CSE Dashboard:
   Tech Stack – HTML, CSS, JS, React.JS
- **Description** - Developed a full-fledged CSE Dashboard for college, which incorporates a time-table generator, dashboard, question-answering platform, and chatbot. Designed a responsive chatbot UI using HTML, CSS, and JavaScript, which allows for dynamic updates and user interactions.

Healthify:
   Tech Stack – Flask, Scikit-Learn, Pandas
- **Description** - Developed an AI healthcare Chat bot using python allow the user to input their symptoms generate follow-up question based on the initial symptoms to gather more information and provide a set of precautions for the reported symptoms. Designed console based low latency AI Chat bot.

Wardrobe Wave:
   Tech Stack – React.JS, Spring Boot, Apache Tomcat, MySQL
- **Description** – Wardrobe Wave is a Java-based clothes rental platform that streamlines fashion access through browsing, renting, and payment integration. Focusing on aesthetics and sustainability, it minimizes waste and promotes versatile apparel. Users benefit from order tracking, rental period notifications, and return reminders for a seamless experience.

Elevate Care:
   Tech Stack – JSP, JDBC, Apache Tomcat, MySQL
- **Description** – Developed an ERP application using Java, aimed at optimizing organizational processes and improving data accessibility. Designed and implemented a robust Leave Management System to simplify and streamline employee leave tracking and approval workflows.

Personalized GPT:
   Tech Stack – React.JS, Tailwind CSS, Google Gemini API, Node.js
- **Description** - Designed and implemented a web application utilizing text-based GPT to generate dynamic responses to user inputs, powered by Google's Gemini API. Ensured seamless functionality through API integration using FE TCH and AXIOS methods.

ACHIVEMENTS

Microsoft Code Without Barriers Hackathon 2024 -Winner (with Healthify).
Certificate of merit from Naukri Campus Young Turks (Score 95.82%)
GIRLSCRIPT Summer of Code 2024 (rank-1377)

EDUCATION

Bachelors of Technology in Computer Science and Engineering (2021-2025):
   IMS Engineering College, Ghaziabad

Intermediate (2020):
   Shakti Shanti Academy, Bihar

High School (2018):
   Saraswati Shishu Vidya Mandir, Chapra, Bihar

CERTIFICATIONS

- Career Essential in Generative AI by Microsoft and LinkedIn
- Python Fundamentals (Intermediate) by Infosys Springboard
- Postman API Fundamentals Student Expert by Postman Canvas Credentials (Badgr)
